Total CIAP Funds Requested: \$2,800,000

Infrastructure Funds Proposed: \$2,400,000, (local CIAP match)

Description and Location of Project: Trosclair Road is a Parish Road that is used by heavy oilfield traffic. This road is approximately eight miles long and connects State Hwy. 27/82 from Cameron to State Hwy. 82 to Oak Grove.

Project Type (from CIAP fund uses): Mitigation of the impacts of OCS activities through funding of onshore infrastructure projects and public service needs.

Project Justification: The development of the OCS and the oil and gas industry in Louisiana has caused rapid deterioration of our Parish roads. Many of the truckers think this road is a part of the State Highway System and travel from Texas through Cameron to Vermilion Parish. This road is in dire need of an overlay.

Project Cost Share: Total Parish Funding-\$2,400,000; Total State Funding-\$400,000
